

## **QUALITY, ENVIRONMENT, OCCUPATIONAL HEALTH AND SAFETY POLICY**

Protan Turkey produces high-quality roofing membranes and plastic-coated textile products. It achieves this by promoting products, solutions, and approaches that meet the needs and expectations of customers and stakeholders.

Protan Turkey strives to continuously improve and further develop the quality of its products and services in line with its purpose and context, in order to meet the needs and expectations of its customers.

Protan Turkey commits to complying with the requirements of TS EN ISO 9001:2015, relevant legislation and regulations, and other quality requirements determined by the company.

Protan Turkey commits to providing a healthy and safe working environment and conditions for all employees. On the other hand, it analyzes and evaluates all risks and opportunities arising from its activities. Within the scope of the ISO 45001:2018 Occupational Health and Safety standard, Protan Turkey focuses on continuous improvement in the field of employee health and safety by complying with legal and other requirements and commits to this. By receiving the opinions, suggestions, and thoughts of all employees, Protan Turkey aims and commits to making progress, carrying out risk assessments by taking into account hazards arising from the environment, machinery/equipment, and behavior, and ensuring employee participation and satisfaction at the highest level by taking actions in line with these assessments. In this sense, Protan Turkey also commits to eliminating hazards and reducing OHS risks.

If there is a danger to life and health, all our employees have the right to stop work. In such cases, managers are immediately notified. On the other hand, all necessary measures are taken to ensure the health and safety of all our stakeholders (subcontractors, suppliers, and other visitors).

Protan Turkey continues its production process by developing new products while protecting the environment from a life cycle perspective. Protan Turkey continuously works to recycle and reuse plastic materials, use natural resources more efficiently and in lesser amounts, and reduce emissions and waste.

At Protan Turkey, the responsibility for OHS&E activities belongs to every employee. In this sense, preventing pollution, protecting the environment, and continuously improving environmental impacts in terms of environmental performance are considered as a top management commitment.

Protan Turkey commits to fulfilling the legal requirements of TS EN ISO 14001:2015, relevant legislation & regulations, and other OHS&E requirements determined by the company within the scope of compliance obligations.

In this context, as a safe workplace where the opinions and thoughts of relevant and interested parties are taken into account, risks and opportunities are analyzed, customer satisfaction is met, employee participation is high and satisfaction is strongly felt, Protan Turkey aims to achieve its objectives by producing with maximum environmental sensitivity and by ensuring that health and safety measures are provided in consideration of all legal and other necessary requirements, caring about employee health, and maintaining efficient management system performance, and continues continuous improvements along this path with all its interested parties.
